

AELA & ENVIRONMENTAL CHOICE – 16 MARCH 2005	<p>Australian Environmental Labelling Association Licence No: CF - 2005 Standards: AELA 17-2004 AELA 22-2004 for Citrofresh, Dermesan and Sanefoam.</p> <p>The ENVIRONMENTAL CHOICE Mark is a symbol of recognition for the public that states that the product complies with the environmental performance criteria described in the relevant environmental labelling standard developed by the Australian Environmental Labelling Association (AELA).</p> <p>The display of the "Environmental Choice" mark on a product means that the product complies with the environmental and social performance characteristics as detailed in the voluntary environmental labelling standard. The message to the consumer is that:</p> <p>(a) The voluntary environmental labelling standards define a socially accepted level of good environmental performance for a product group. This standard is defined after completion of the procedures defined in the standard development guidelines.</p> <p>(b) The product meets the relevant voluntary environmental labelling standards.</p> <p>(c) The Environment Choice Mark means that the product is of good environmental performance or is environmentally preferable compared to average environmental loads of similar products sold on the Australian market.</p>
